Guinea Bissau

The variety of available fishing is in large part due to the Bijagos are unique being Africa's largest archipelago of 30,000 square kilometres and is a largely protected saltwater wilderness. of the 78 major islands, only 20 are occupied with less than 5000 in habitants in total. Secondly the region is one of the largest estuarine environments in Africa fed by four massive hyper tropic river systems the result is a biological marvel so if you want a
